

# HAZEMS REACTION

After producing work, I wanted to show hazem the outputs I had been producing, and so I sent him the link to both videos.

it seems to have a positive affect on hazem as he talked about how he liked the video and what the projects main goals were. This was reassuring and spurred me to want to continue sharing his story.

*'I appreciate  
that so  
much!'*

*'This is a  
really good  
idea!'*

*I like it a lot'*
